Message From Pells

Pells Keeper School (PKs) is a great way for the serious goalkeeper to sharpen their goalkeeping skills during the off season. PKs staff provides a formal introduction to tactical positioning and shot stopping techniques to improve the keeper's knowledge of the position.

PKs provides 12 hours of structured training that will develop the keepers confidence in their goalkeeping abilities as well as the tools necessary to improve each day.

PKs challenges the keepers to come prepared for a demanding program that is designed to help each keeper access the hidden qualities in them that make each keeper unique and special.

PKs staff consist of the current Maryland goalkeepers and other qualified coaches that know the type of training I demand. I take a hands-on approach in the training of the keepers to insure they are receiving a quality learning experience that can help improve their game performance.

Space is limited, each session will have a maximum of a 6:1 player to coach ratio so that each keeper gets the attention that is needed to master the curriculum.
